M E S S A G E
FROM
C E O

Dear friends and partners

It is my pleasure to welcome you all at our second premier global meeting which will take place from the 18th to the 21st of September 2017 at the St. Regis in Kuala Lumpur, Malaysia

Since last year onwards, Neutral Air Partner takes our members to a new networking experience, designed exclusively for advanced air cargo professionals, and for those who want to improve their air cargo profile and set new standards of excellence for our business.

You will explore endless partnering and networking opportunities by interacting with common – minded people and first class air cargo providers. You will acquire extensive knowledge from industry's experts, and you will have the opportunity to develop and promote innovative air cargo products and services to your markets.

We have developed a customized Face 2 Face meeting scheduler system, that allows our members and guests to meet fellow delegates based on specific partnership requirements, including industry expertise, trade lane & vertical focus, airline specialization, special services and much more. Get prepared, and schedule to meet with fellow members and guests that fit your profile and needs, and interact with like-minded experts.

This year and in addition to our general air cargo logistics platform, we launch our speciality groups tailor made for air cargo professionals as follows:

NAC - Neutral Air Consolidators: Wholesalers, Master co-loaders, BSA CPA agents, brokers

NAX - Neutral Air Express: Express, Courier, Time critical, eCommerce

NAV - Neutral Aviation Specialists: Air cargo management companies, GSSAs, Charter Specialists, Virtual airlines, Aviation consultants

It's good seeing you all in KL,

Christos Spyrou
C.E.O & Founder

Georges Biwer, VP EMEA for Airbridge Cargo states: *"It was a refreshing event also from airline prospective in regards to the quality of the delegates gathered from around the globe, the industry expertise in airfreight ,and consequently the buying power such a group of smaller sized market players can bring to a carrier. The innovative approach , linked with a platform of air cargo community tools tool can deliver added value to the supply chain, and differentiate themselves from the mass .We as Air Bridge Cargo are supportive to innovation in our industry to every single customer, and we are looking forward to the positive developments of NAP together with ABC as their carrier."*

TOP 10 THINGS TO DO IN KUALA LUMPUR
